How to use: run through the list in short sessions, a column at a time. A word counts when your child reads it in under two seconds. Revisit unchecked words across the week in real sentences and stories - not just from the list.

Every box checked is a word recognized.

Checked on paper? The next step is reading them out loud in real stories. Point your iPhone camera at the code - Readigo listens to your child read and marks the words they stumble on.

Readigo is an iOS app for kids ages 6–12. It listens while a child reads aloud and scores the reading in real time. · readigo.app
